WASHINGTON 25, D. C.

PREFACE

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details of the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains an alphabetical list of pamphlets (except a number of selected titles that are included in Part 1A - Books and Selected Pamphlets) and serials registered in the Copyright Office in class A under the symbol "AA" from January 1, 1947 through June 30, 1947. It also includes entries for contributions of a literary nature to periodicals registered in class A5 and, toward the end of the catalog period, in class B5. In addition, it includes items, chiefly of a serial nature, registered in the following classes but not included in part 1A of the Catalog: A (books proper), AF (foreign books in a foreign language), and AI (books first published abroad in the English language). Renewal registrations for these classes made in the first half of 1947 are listed in part 14A of the Catalog.

ARRANGEMENT. The works listed in this catalog are entered under main headings (personal or corporate author, editor, etc.) or are listed under title. They are arranged alphabetically together with cross references from joint authors, editors, etc., and from a few titles.

ENTRY. Under the main heading each entry includes the title, illustrators, editors and joint authors up to three, edition information as required, place of publication and name of publisher if available, and the year date given on the title-page. The year date of publication is also included if it is different from the title-page date. If the year given in the copyright notice is different from either date, it is indicated in one of two styles: "c1947" or "Copyright 1947". A description of the physical characteristics of the work is given, which consists of the number of pages or volumes, the abbreviation "illus." if the work is illustrated, and the size in centimeters; if these elements are not present, however, the work is briefly described as a "sheet," "folder," "device," etc. If the work belongs to a series, the title of the series is given.

COPYRIGHT DATA. The statement of copyright facts following each entry begins either with the copyright symbol © or the abbreviation "Pub." (published). The former is used in the case of works first published in the United States and works in foreign languages published abroad. The abbreviation "Pub." is used for works first published abroad in the English language, for United States editions of such publications, and for works in which the date in the notice differs from the publication date given in the application. The symbol © or the abbreviation "Pub." is followed by day, month and year of publication as given in the application. For ad interim works, the date the work was deposited in the Copyright Office is also given. Where the claim is based upon new matter, and no edition statement is available, a brief description of the new matter is given before the date. The name of the copyright claimant, or a designation for the claimant if his name appears elsewhere in the entry, follows the date, together with his address if that has not already appeared in conjunction with his name elsewhere in the entry. The registration number is preceded by one of the following symbols: A (books proper), AA (pamphlets, leaflets, etc.); AF (foreign books in a foreign language); AI (books first published abroad in the English language). Copyright statements for United States editions for which ad interim registration was previously made are followed by a statement of the ad interim registration, when this information is available.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by Title 17, U.S.C., secs. 12 and 13 has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Title 17, U.S.C., secs. 210 and 211. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

ORGANIZATION OF THE CATALOG. This issue of the Catalog is part of Volume I of the new Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U.S.C., sec. 5. Letters are used to designate subdivisions. The following is the plan of publication for 1947:

Part 1A - Books and Selected Pamphlets.
Part 1B - Pamphlets, Serials and Contributions to Periodicals.
Part 2 - Periodicals.
Parts 3 & 4 - Dramas and Works Prepared for Oral Delivery.
Part 5A - Published Music.
Part 5B - Unpublished Music.
Part 6 - Maps.
Parts 7-11A - Works of Art, Reproductions of Works of Art, Scientific and Technical Drawings, Photographic Works, Prints and Pictorial Illustrations.
Part 11B- Commercial Prints and Labels.
Parts 12 & 13 - Motion Pictures.

C., to whom inquiries and orders concerning the complete Catalog or any of its parts should be addressed.
